EXPERIENCE

Software Engineer Intern
Universal Health Services (UHS)
📅 06/2021 - 12/2021   📍 King of Prussia

Collaborated with a team to maintain and develop medical software used in UHS Hospitals

- Translated specifications into implemented data structures for the patient chart component in UHS's new mobile app EMRA
- Created documentation for the onboarding process of new hires to streamline their experience
- Participated in daily scrum meetings to communicate progress
- Worked closely with the product manager & lead engineers to launch the next phase of EMRA in 3 months

Consultation Agent
Geek Squad
📅 06/2019 - 06/2021   📍 Philadelphia

Provided technical assistance to clients seeking solutions for their consumer electronics

- Created service specifications for repair agents to deliver accurate requirements for client repairs
- Decreased service repair times by analyzing Windows event viewers which boosted turn around times
- Provided a consistent standard of excellence with clients which gained Geek Squad dozens of repeat customers
- Learned Apple diagnostic suite to facilitate repairs for Apple Devices

EDUCATION

Temple University

| Scrum Master | Atlassian Suite | Git |

PROJECTS

Portfolio
📅 02/2022
🔗 https://philiplapinski.com/

Designed and built a single-page application to showcase my portfolio

- Designed and prototyped using Figma
- Minimalistic approach - built without superfluous libraries

WatchIT
📅 09/2021 - 12/2021   📍 Philadelphia
🔗 https://github.com/Capstone-Projects-2021-Fall/project-watchit

A user-defined action web application driven by object detection that is designed to work with single board computers

- Led a 6-man team using the agile software development cycle
- Provided assistance to all members at every level of the stack to reach milestone deadlines
- Successfully released the first version in 3 months with a demonstration to the stakeholder
